Enbio S
World's fastest autoclave.
Vacuum+drying.

Designed  in Switzerland

Bone dry pouches in no time.

15 min

7 min

Enbio can sterilize a load of wrapped instruments in just 15 minutes.

Full drying means that pouches are bone dry. Not somewhat dry.

In case of emergency, when you need an instrument sterilized for immediate use, FAST process does the job in just 7 minutes.

4 full cycles with drying per hour.

Enbio S is 6 times smaller and 3 times lighter than a typical pre-vacuum autoclave. But when it comes to work efficiency, it keeps up the pace.

	Pouches / h	Instruments / h
Enbio S	32	50

The new definition of sterilization speed.

Time is a relative value. It flows differently under different circumstances.
But when you need to have your instruments ready, you need them, well, FAST.
While other autoclaves might test your patience, Enbio bends the laws
of physics to cut the waiting to the invisible.

Inaudibly silent.

Enbio autoclaves work unbelievably silent.
Wherever you use it, nobody will notice it's working.

Enbio S. Speedmaster.

Enbio S is compact to fit even a confined space. Unbelievably short process times will save your procedure in emergency, or allow sterilization of the instruments as you go, between patients.

Unit weight

33 lb

Capacity

Max. packages amount (circa)	8
Max. recommended batch weight	1.1 lb
Process chamber volume	2.7 l

Pressure & temperature

Working pressure	2.1 Bar
Max. pressure	2.3 Bar
Max. process temperature	137°C

Dimensions

Width	9.8 in
Height	6.3 in
Depth	22 in

Electrical

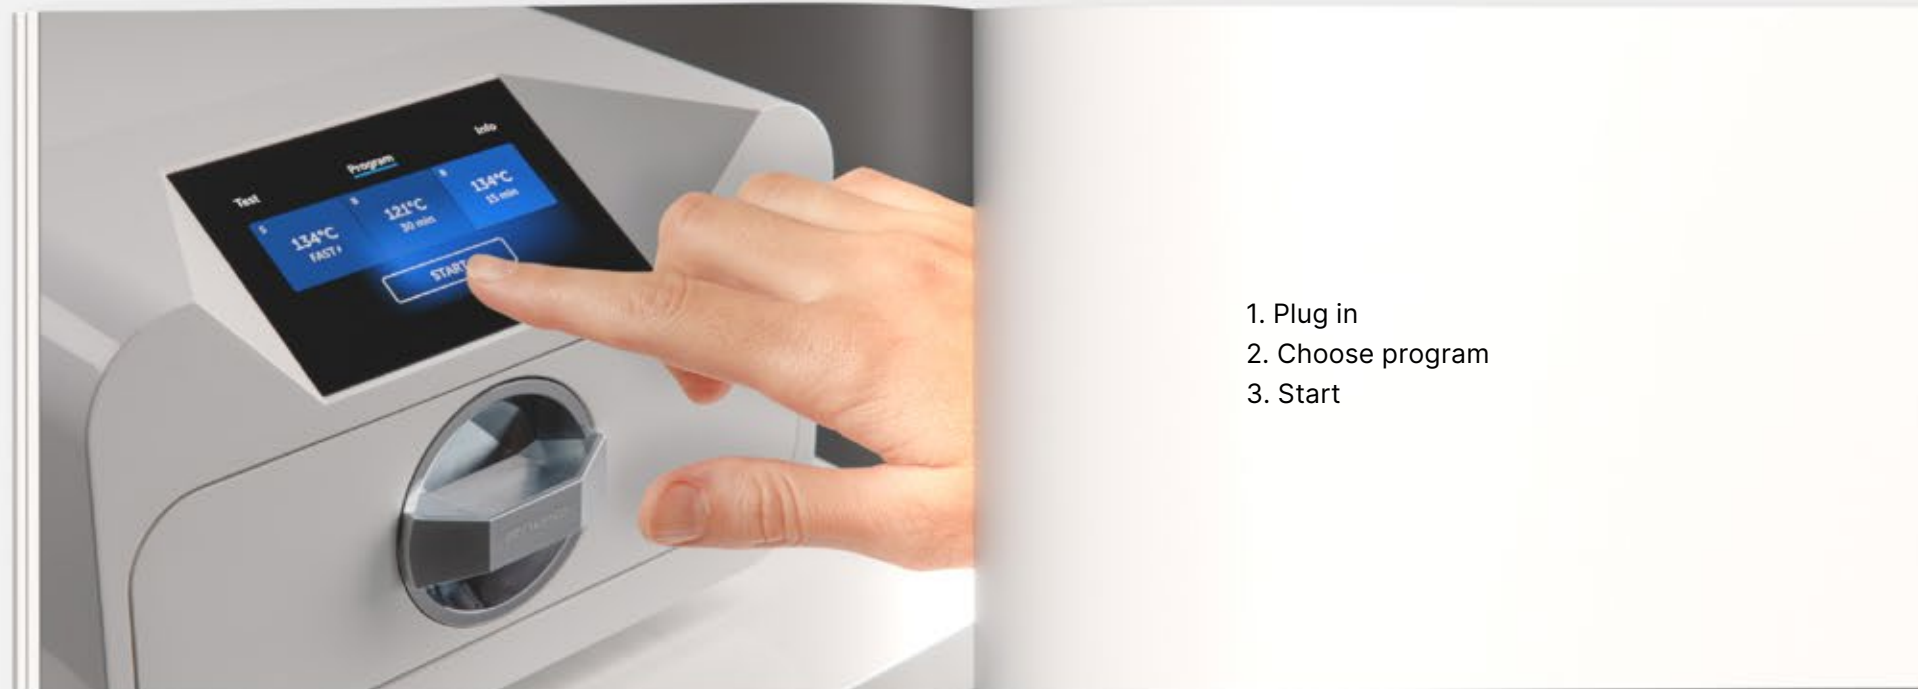

Power supply	110-120V AC
	60 Hz / 15 A

Misc

Ingress protection level	IP20
Data archiving	USB stick
Water conductivity*	< 15 µS/cm

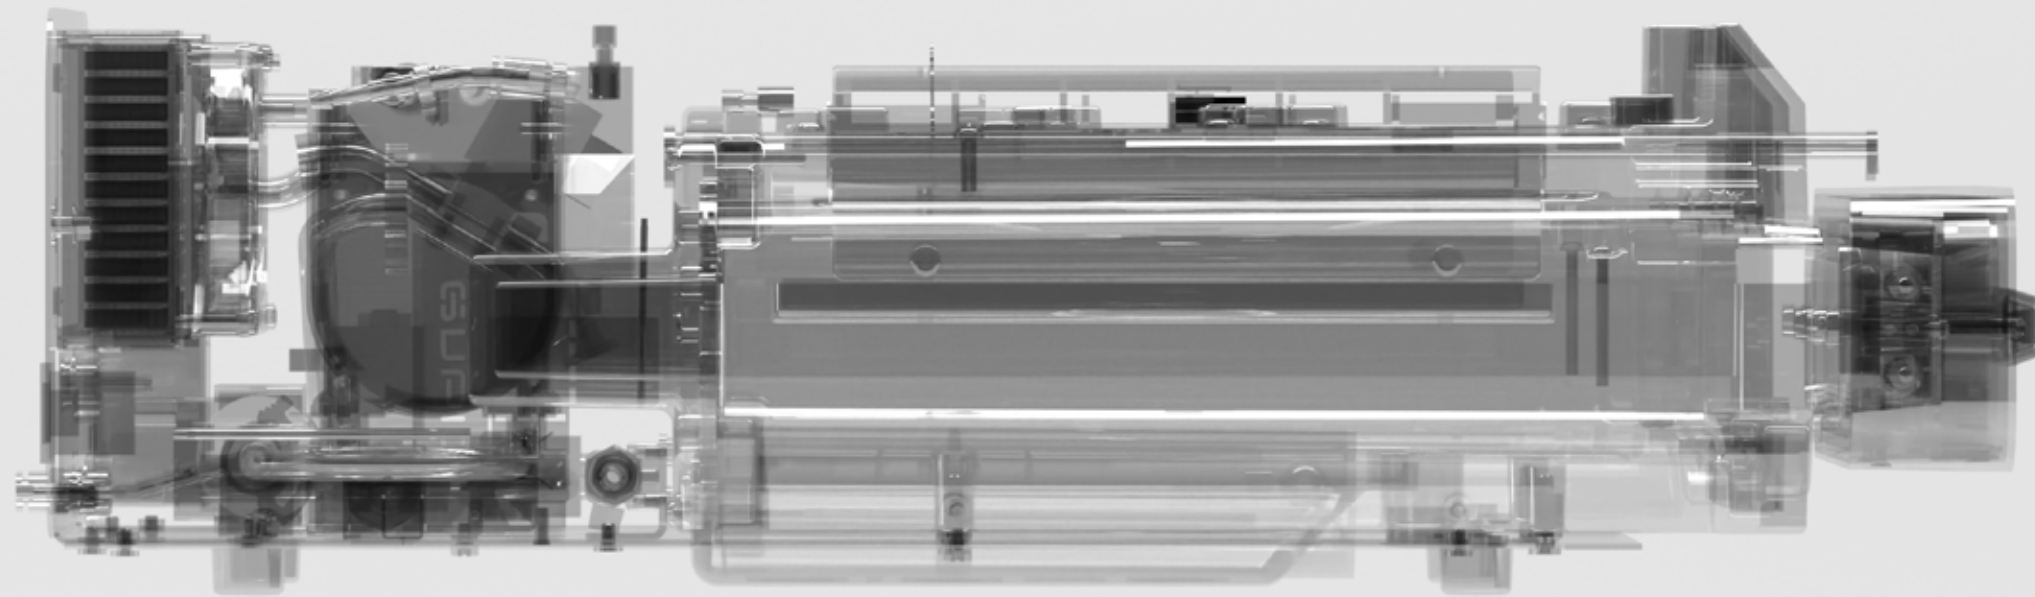

* - demineralized water only

Enbio user's manual

Enbio Care

Enbio's autoclaves are the result of years of extensive research and are a state-of-the-art element of modern medical technology.

20.000 units in 4 years.

In just 4 years, Enbio's worldwide community has grown to 20,000 users, who sterilize instruments in our autoclaves, for the complete safety of their customers and patients.
